

Neha Kamble

Frontend Developer

Enthusiastic and detail-oriented React Developer with over 3 years of experience in building dynamic, responsive, and user-friendly web applications. Proficient in React.js, JavaScript, Redux, and modern front-end development tools. Seeking to leverage my expertise to contribute to innovative projects and deliver exceptional user experiences.

Work Experience

Infosys

O2 Business

Jul 2024 - Present

- Collaborated with UX/UI design teams to translate Figma wireframes into reusable React components, improving the website's visual appeal and increasing the conversion rate by 20%.
- Integrated APIs to optimize product data rendering, improving page load times and reducing server requests.
- Utilized state management techniques (e.g., Context API, React hooks) to enhance application performance and UI consistency.

Telstra

Jan 2024 - Apr 2024

- Developed dynamic, cross-browser compatible, and accessible websites, improving load times and performance.
- Created reusable UI components with Bootstrap, streamlining development and ensuring responsive design.
- Optimized CSS and JavaScript to enhance page speed and improve overall user experience.

Auckland Council

Aug 2022 - Jan 2024

- Developed and implemented reusable React components, reducing the code-writing process for the team by 15% and improving development efficiency.
- Integrated Adobe Experience Manager (AEM) with React, using AEM's RESTful APIs to fetch dynamic content and bind it to React components via React hooks. This streamlined the content delivery process, reducing load times and improving content rendering speed by 20%.
- Collaborated effectively with cross-functional teams, including design, product, and backend, to deliver seamless user experiences and meet project goals within deadlines.

Educational Background

Bachelor of Technology

Walchand College of Engineering.
Aug 2016 - Aug 2021, Sangli, Maharashtra
